CHANGE OF PROGRAM/MAJOR/CONCENTRATION

Students are permitted to transfer from one major or concentration to another within the College if they maintain the minimum grade point average required. Such transfer of the major should be made during the registration period, prior to the next session. Students should be aware that a change in major may result in the loss of credits for courses previously taken which are not applicable to the new program.

For approval of change of program/major/concentration, students must meet with their assigned Program Advisor.
